Cheese Menu

Mrs Bells Blumin White

This hand crafted stunning offering from Shepherd's Purse dairy near Thirsk. It is made with local cow's milk & is hand turned every day to ensure the best mould ripening takes place. It has a delicate texture & a wonderful buttery & creamy taste. This is similar to a European style Brie.

Brinkburn

This goat's milk cheese is produced in Northumberland. It's as extravagant a goat's cheese can get. It is velvety soft on the palate, light textured & pleasingly refined with a delicate edge to lengthen & liven things up.

Harrogate Blue

This golden blue cheese is produced up in Thirsk from cow's milk. This relatively new cheese has delicate blue veins, is soft & creamy & has a mellow blue flavour with a hint of pepper.

Olde Yorke

This ewe's milk cheese is produced at Shepherd's Purse dairy farm in Thirsk. It has a beautiful fresh, crisp & creamy taste that cleanses the palate leaving it refreshed. It is very similar to feta but more moist & wet. The texture is sliceable when removed from the fridge & spreadable when at room temperature.

Richmond Smoked

Produced in Swaledale, this cow's milk cheese has a creamy yellow colour with a close moist texture. The gentle nature of this particular smoking technique creates a mild nutty smoked flavour.

Swaledale Blue

This cow's milk cheese is produced by the Reed family in Richmond. It is creamy in colour with distinctive blue veins. This texture is soft & complimented by a smooth nutty flavour with a slight tang. It is stronger than the Haldenby Blue, but this cheese is not to be dismissed as it came 2nd in the world cheese awards in 2011.

Golden Cross

This goats cheese is produced by the Golden Cross cheese company in East Sussex. The cheese is lightly charcoaled prior to maturation. When young the cheese has a fine, firm, silky texture with a fresh citrus flavour. As it matures it then becomes denser & creamier.
